PROFESSIONAL CAREER

Full Sack Web Developer

Freelance | From 2021

Content Management System for: www.aceroproducciones.com.ar
I have developed a Dashboard API Rest as CMS including CSS and JavaScript libraries in the frontend for image management, table sorting and cards with drag and drop. In the backend I have implemented Slim PHP & MariaDB because its simplicity matches the scale of the system.

College Management System

I am currently developing a system to manage the students and educators of an institute of higher education. Using Laravel PHP, MySQL and integrating some third party libraries.

Technical Support

Government of Bs. As. Province | Mar 2016 - May 2022

IT Support Levels 1, 2 and 3 (full description details in LinkedIn).

I have gained soft skills that allowed me to work as a team with my co-workers in order to solve their technical issues. I have also learned how to deal with unexpected events and find solutions to complex matters.
